

CORONAVIRUS UPDATE

A Person Washing Their Hands

The new illness called the coronavirus, or COVID-19, is continuing to spread. The coronavirus started in China in 2019. It has now spread to other countries around the world, including the U.S., Japan, England, Canada and more. The coronavirus is like the flu. The coronavirus spreads from person to person. Leaders and doctors around the world are trying to stop the coronavirus. Leaders in some countries are canceling big events and closing schools to try to stop the coronavirus from spreading. Other people can help too. People should wash their hands regularly with soap and water. They should stay home when they feel sick.
